## MEGA ETCH™ ETCHING MACHINE

**GLOBAL LEADER IN ENGRAVING METALS  
AND ETCHING CHEMICALS**

**LUXFER®**  
GRAPHIC ARTS

The **MegaEtch™** is supplied with full CE Certification, a six month guarantee, together with a complete back up service to provide ongoing after sales care.

## MEGA ETCH

The **MegaEtch™** has been specically designed and built to ensure the stability and performance of a traditional etching machine, together with many other innovations including start up timers, touch screen control panel for initial set up parameters of the unit (for 120L machine), along with other features to aid today's etchers' expectations.

The bath and external panels are constructed of heavy gauge stainless steel with easily sourced and maintainable mechanical parts and motors. All electrical components are certified to meet worldwide electrical power specifications.

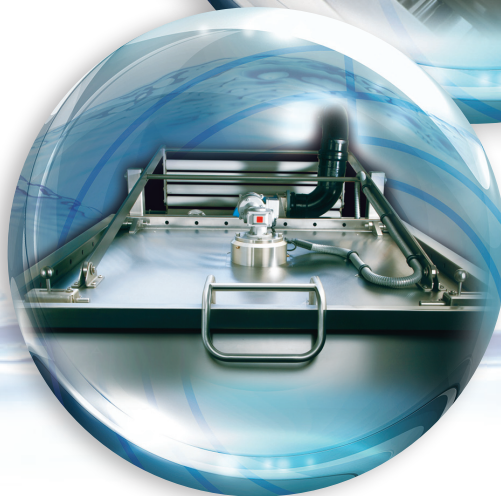

**Mega Etch™ 120L** has a 120 Litre bath capacity and a maximum plate size of 500 x 650mm; giving the magnesium engraver flexibility and improved productivity. You have instant access and complete control over the cooling, heating and paddle speed via the stand alone (touch screen), user friendly, control panel.

**MegaEtch™ 60L** has a 60 Litre bath capacity and a maximum plate size of 400 x 500mm; giving the magnesium engraver flexibility and improved productivity. You have instant access and complete control over the cooling, heating and paddle speed via the stand alone, user friendly, control panel.

**MegaEtch™ 45L** has a 45 Litre bath capacity and a maximum plate size of 400 x 500mm; giving the magnesium engraver flexibility and improved productivity. You have instant access and complete control over the cooling, heating and paddle speed via the stand alone, user friendly, control panel.

# TECHNICAL DATA

## ME 120L

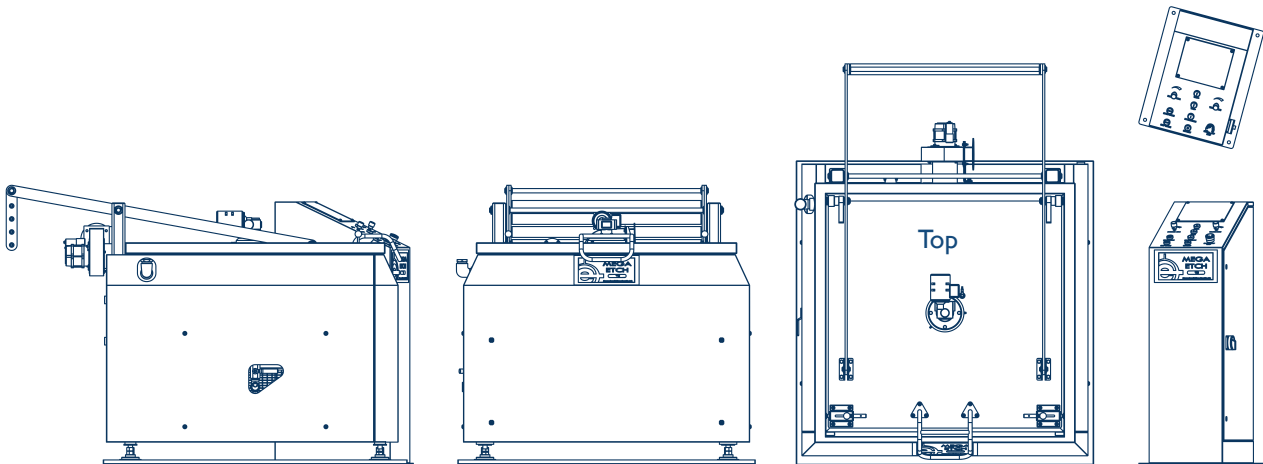

Size/Weight of machine: 1850 x 1320 x 1260mm / 575kgs

Size/Weight of Control Panel: 560 x 450 x 1210mm / 55kgs

## ME 60L/45L

Size/Weight of machine: 1120 x 1140 x 1310mm / 270kgs

Size/Weight of Control Panel: 600 x 600 x 800mm / 20kgs

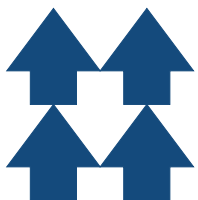

## ELECTRICAL CONSUMPTION

200-240V 1W+N-PE/GND 22A – 50/60Hz

200-240V 2W+N-PE/GND 22A – 60Hz

200-220V 3W+N-PE/GND 16A – 50/60Hz

400V 3W+N-PE/GND 14A – 50/60Hz
